

Automatic Tape Attaching & Top Fold Stitching Machine

Automated sewing: 2 processes with a single operation!

Continuous double-folding for top fold stitching after tape attaching!

Tape attaching and top fold stitching are point processes that can affect pleat quality.

Beautiful Stitching
More Efficient: 1 operator, 2 processes
Compact Design

Features

- Tape attaching
Tape attaches perfectly to surface without waves or distortion.
- Top fold stitching
Folding follows tape, ensuring perfectly straight and attractive stitching.
- Our unique folding feed design ensures accurate, uniform stitching along the entire width.
- Pattern matching function automatically corrects any materials slips to ensure products of the highest quality.
- Device converts automatically when the tape width is input.
- Total sewing length and unit numbers are displayed.

Specification

Model No.	NCH-350C
Supported tape width	50 mm ~ 100 mm
	(adjustable in 1mm units)
Machine head	AZ8403-04DF/K2
	DSC-246-7 (with Double-capacity Hook)
	Max. Sewing Speed 2130rpm
Voltage / Electric Power	3-phase 200V : 2Kw
Air Pressure / Power Consumption	5kgf/cm ² / 0.4KW (option)
Dimensions	1300mm(W) X 1550mm(D) X 1500mm(H)

※Specifications and appearance are subject to change without prior notice for improvement.
