

Nakanihon NCN-700

Automatic sewing machine for panel joining

This machine finishes panel joining finely!

Thanks to the simple operation of setting the fabric on the machine,
even an operator with no sewing experience can operate the machine.

Pattern matching work becomes more easier, and there is no pattern deviation due to the sewing deviation.

Features

- The set of material can be easy and correctly thanks to the back clamping mechanism.
- There is no sewing deviation thanks to the front side clamping mechanism.
- One-person can set a material easily thanks to the mouse mechanism.
- The sewing speed can be changed by some materials. (Max. speed 5000rpm)

Specifications

Model No.	NCN-700
Machine head	MO-6916S
Sewing speed	Max. speed: 5000rpm
Stitch length	Standard length(3~3.5mm)
Needle	DCX27 11~14#
Voltage and electric power	600W
Air Pressure and power consumption	5kgf/cm ² 0.4KW (option)
Dimensions	5020mm(w)x1000mm(d)x2100mm(h)

※Specifications and appearance are subject to change without prior notice for improvement.
