

Automatic tape attachment & top fold stitching for curtains

Automated sewing: 2 processes with a single operator!

Continuous double-folding for top fold stitching after tape attachment: our very own design!
Tape attachment and top fold stitching are point processes that can affect pleat quality. Simple

Beautiful stitching

More efficient: 1 operator, 2 processes

Compact design

Feature

- Tape attachment
Tape attaches perfectly to surface without waves or distortion.
- Top fold stitching
Folding follows tape, ensuring perfectly straight and attractive stitching.
- Newly developed folding feed design ensures accurate, uniform stitching along the entire width.
- Pattern matching function automatically corrects any cloth slips to ensure products of the highest quality.
- Device converts automatically when tape data is input.
- Compact, space-saving design.
