Automatic folding conversion & automatic feed  
adjustment functions

## Automated curtain sewing with full-turn hemming function

**Authentic stitching quality is simply not possible with regular sewing**

The industry-first revolutionary system for continuous cloth feed folding and machine feed!

Accurate automated sewing of full-turn hemmed custom wide curtains, with simple input operation!

### BEAUTIFUL STITCHING

### COMPACT DESIGN

#### Features

- Simply input fold width for automatic conversion of device.
- Sets are simple. Edges are folded automatically when cloth is inserted; simply ensuring cloth edge follows guide board during operation enables efficient stitching of any cloth width.
- Newly designed folding feed design ensures accurate and uniform fold stitching.
- Pattern matching function enables automated correction of slips in folded cloth, to ensure manufacture of high quality products.
- Very little puckering, even on voile fabrics, ensures neat attractive stitching.
- Compact, space-saving design.
- Total sewing length and unit numbers are displayed.

#### Specification

Model No.	NCH-300
Finished 3-fold width	70mm ~ 120mm (adjustable in 1mm units)
Sewing machine used	Auto threading cylinder single-needle sewing machine DSC-246-7 Max. rotation: 2000 rpm
Voltage / Power supply	3-phase 200V : 1KW
Air pressure / Power consumption	5kgf/cm <sup>2</sup> 0.4KW (option)
Installed dimensions	700mm(w) X 1410mm(d) X 1500mm(h)

\*Specifications and appearance may vary without notice as improvements are made.

The listed contents of this catalog are current as of February 2000.
